

The Tyne Copper ath Tub

The Tyne Copper Bath Tub

Description

The Tyne bath is a classic roll top tub based on the 18th-century bateau bath design. Unlike our Usk bath, which is made from cast iron and copper clad, the Tyne is made entirely from copper making it a much lighter design. The River Tyne is a river in North East England and it is formed by the confluence of two rivers: the North Tyne and the South Tyne. These two rivers converge at Warden Rock in Northumberland at a place dubbed 'The Meeting of the Waters'.

Price

Bath Length	With Overflow Hole	Without Overflow Hole	€ (exc. VAT)
1500mm	DAD10570	DAD1057X	6,400
1700mm	DAD10540	DAD1054X	6,400

Specification

Length	1700 / 1500	mm
